

# YGLC Game Cancellation Policy

## **Scenario 1**

The President of the YGLC and/or the scheduler have the authority to cancel a league wide play day for temperature and/or weather conditions. These cancellations will always be done 2 hours prior to first draw with no costs to any of the clubs.

## **Scenario 2**

Hosting Clubs have the authority to cancel a specific venue due to any of the following:

- Weather conditions (Precipitation, Temperature, Wind Chill, Road Conditions)
- Loss of use of their venue (per direction of a township/school district)
- Deteriorating field conditions

If cancellations are done 2 hours prior to first draw, there are no costs to any of the clubs. If done within 2 hours, all officials will be compensated at 50% the normal rate for their first/next 2 scheduled games following the announcement of cancellation. Compensation for this scenario would be provided by the league directly to officials.

Example: Susquehannock is scheduled to host hourly games starting at 12:00PM with the last game starting at 5:00PM. At 2:30PM, it is decided, for any of the reasons stated above, that the venue will close at 3:00PM. Officials would be paid at the 50% rate for their scheduled 3:00PM and 4:00PM games but would not be paid for the 5:00PM game.

## **Scenario 3**

Game day cancellations and failing to appear for scheduled games, whether done intentionally or accidentally, are both actions that are highly discouraged by the YGLC. The offending team in either of these instances will be responsible for compensating both scheduled officials the full game fee for any and all missed games. \*\*Games rescheduled in advance (48-hour notice) through the YGLC scheduler do not fall under this category and do not incur any additional fees to the clubs involved.

\* Regardless of which scenario is applicable, all cancellation notices must be sent to the league scheduler as soon as possible so that all other interested parties can be notified.

Current YGLC Scheduler
